Yard Works drivers may attempt to tailgate spread gravel at their discretion if requested.

Tailgate spreading can be attempted only with certain gravels.

Yard Works makes no guarantee of the quality or completeness of any attempt to tailgate spread gravel. Customers should expect that even the most successful tailgate spread will still require them to spend extra time and labor for a finished job. Gravels & sands are natural products which can vary in color, texture and size.

Yard Works Custom Blend Mixes

Designed for Bio-Filter, Sports Turf & Specialty Soil Applications.

Yard Works can produce soils to your exact specifications.

Call for details regarding these fine products

Yard Works soils and composts are recycled products made from natural sources. Small pieces of wood fiber and small pebbles may be present. These naturally occurring objects are harmless and will not affect the quality of your soil. Weather conditions and moisture levels may cause cosmetic changes in the appearance and texture of soils and soil blends.
